CIRCULAR 2011HOC0314SS

15th July 2011

TO: BRIGADE SECRETARIES

Dear Brother/Sister,

HANDS OFF OUR PENSIONS CAMPAIGN - POWERPOINT PRESENTATION AND UPDATED SPEAKERS NOTES.

Annual Conference agreed that branch meetings should take place to prepare members for national strike action. There is a recognition of the increasing workload on officials and in order to assist in the delivery of this message, Head Office has prepared a PowerPoint presentation and speaker notes which explains the attacks and some of the challenges that the union will be facing.

This PowerPoint presentation contains a copy of these speaker notes attached which can be viewed by;

Opening the presentation,

Clicking on view on the toolbar,

Selecting notes page.

Officials can then see how the speaker notes align with the individual PowerPoint slides.

It is also recognised that a PowerPoint is not always the most appropriate delivery method so separate speaker notes have been provided. These can be used to assist officials in delivering a consistent message, which reflects the position at this stage.

As part of the meeting please encourage members to lobby their MP in support of EDM 2049.

Further updates, which will expand upon issues such as more details on the impact on RDS firefighters and members of the LGPS, will be distributed in the near future.

Please note it is extremely important that details of the meetings and votes taken on the model resolution are recorded.

Yours in Unity,

SEAN STARBUCK
National Officer
