

Staines

58% of the total Staines area population can expect to wait at least 6 minutes longer at night for a fire engine to arrive

Ashford (Population 25,240)
Existing 1st emergency response takes 6 minutes at night coming from Staines but this will rise to 14 minutes coming from Egham.

Stanwell (Population 9,903)
Existing 1st emergency response takes 6 minutes at night coming from Staines but this will rise to 12 minutes coming from Egham.

And if Egham's fire engine is going to be spending more time in Staines, where will a fire engine have to travel from to cover Egham's emergency calls?

Have your say before it's too late. Take 5 minutes to fill in the online survey:

<http://www.fbusurrey.co.uk/html/survey.html>

Minutes & seconds make the difference between fire fighters rescuing casualties or recovering bodies

No-one in the Staines area should expect a fire engine quicker than can be achieved now, if these cuts are implemented
